The diagram illustrates a file dependency structure. At the top is a grey box containing the path to a header file: /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgBoundaryHelper.H. Below this box are two white boxes. The left box contains the path to a source file: /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgGeneralBoundaryManager.H. The right box contains the path to another source file: /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgProcessorBoundaryManager.H. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.
