

Foam::eqnOfState

```
graph BT; A[Foam::idealGas] --> B[Foam::eqnOfState];
```

The diagram illustrates a relationship between two classes. At the bottom is a white box labeled 'Foam::idealGas'. At the top is a gray box labeled 'Foam::eqnOfState'. Two blue arrows originate from the top of the 'Foam::idealGas' box and point upwards to the bottom of the 'Foam::eqnOfState' box, indicating that 'Foam::idealGas' inherits from or implements 'Foam::eqnOfState'.

Foam::idealGas
