The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgBoundaryHelper.H. Below it are two white boxes representing source files. The left box is /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgGeneralBoundaryManager.H, and the right box is /home/nam-ha-tran/OpenFOAM/DGFoam/src/DGMethod/InInclude/dgProcessorBoundaryManager.H. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
